

Illuminating Efficiency: Avista's Role in Accelerating LED Transformation at Post Falls School District

Based on national average, the school district will save **\$41,720.77** this year alone after implementing the LED lighting upgrade

OEO Energy Solutions played a pivotal role in collaboration with Avista to drive a comprehensive LED upgrade. With Avista's robust rebate of \$90,800, OEO Energy Solutions executed the transformation, achieving impressive results – a reduction of 321,654.44 kWh in energy consumption.

This partnership expedited the project, leading to immediate financial relief and a brighter, more sustainable learning environment.

IMMEDIATE BENEFITS

- Financial Relief: The rebate eased the financial burden and expedited project realization.
- Enhanced Environment: Upgraded LED lighting immediately improved the learning atmosphere.
- Eco-Friendly: LED transformation aligned with sustainability goals.

IMPLEMENTATION

- Assessment: OEO identified energy optimization opportunities.
- Proposal: A tailored plan outlined savings and LED solutions.
- Execution: Advanced LED systems were installed.
- Adaptation: Swift adjustments ensured seamless progress.

SUCCESS

- Rebate Impact: \$90,800
- Energy Savings: 321,654.44 kWh

The Challenge

Post Falls School District faced high energy costs and outdated lighting, impacting resources and learning. To improve finances and the educational environment, the district sought a lighting revolution.

The Solution

OEO Energy Solutions and Avista partnered to upgrade the lighting, aiming to enhance energy savings and lighting quality with advanced LED technology.

Results: The Avista Advantage

Avista's robust rebate of \$90,800 significantly offset project costs, enabling a swift, comprehensive LED upgrade. Without Avista's support, the project might have been prolonged over several years, ultimately delaying the positive impacts of the lighting upgrade.
